Proxy: real per-player data with a different definition (combat activity instead of logins).

Estimate: company-level money divided by player counts. Keep estimates visually separate from official figures in the dashboard.

- [CAVEATS]
- ◆ **No per-player payments exist publicly.** Monetization is company level only. This is our ERD boundary.
 - ◆ **Killmails only show players who fight.** Retention measured from them is a lower bound.
 - ◆ **Creation dates cover 97.8%** of characters in the killmails. One account can have several characters.
 - ◆ **Pearl Abyss sold CCP to CCP's management on 1 May 2026.** CCP is now Fenris Creations; Pearl Abyss's EVE revenue ends at 4Q25.
 - ◆ **CCP revenue:** \$70.4M (2024), \$70.3M (2025). Subscriptions and in-game sales: \$55.0M and \$60.8M. Omega plans: 1, 3, 6, 12, 24 months.
 - ◆ **2026-07-13 has no killmails.** The file is missing at the source.
